Summary:

As a programmer, My objective is to leverage my technical expertise and passion for building high quality software to create scalable and responsive web applications that meet and exceed client expectations. Have an excellent interpersonal skills and possesses a steep learning curve.
My ultimate goal is to continuously expand my skills to provide the best possible user experiences and contribute to the success of the organization.

Skills:

C#	JavaScript
Html & Css	TypeScript
Node Js	SQL
Angular	React
Python	Git
Team player	Self learning

Experience:

Have worked on a variety of exciting projects that have allowed me to hone my skills in C#, JavaScript, TypeScript, Angular, and HTML. One of my most notable projects involved developing a website using entity framework, connection string ,dependency injection, ILogger. This project required me to design and implement a robust backend architecture, And develop responsive front-end pages using HTML. Overall, I am confident in my ability to develop high quality software that are both scalable and user friendly, and I look forward to continuing to grow and expand my skills in these technologies.

Education:

Software Developer, *Sela College 2022-2023*
Software development (web) 10-month track
Programming Languages: C#, JavaScript, TypeScript, Html, CSS, SQL
